Weekly Study Timetable

FRI	THURS	WED	TUES	MON	TIME

Third & Sixth Year students should construct a separate timetable for the weekends.

There is always time to do a few short sessions!

Break your time into 20 – 25 minute blocks. Keep 10 min. each night for "Reviewing" (as explained at seminar). Do your easiest work last. Don't always do your homework first and then study, mix it around.

Always remember the best way to learn is to make mistakes and correct them = don't just copy out the textbook!
